

Mobile Marketer's Automotive Guide

How Location-Based Advertising
Drives Car Sales

Market Challenge

Drive awareness, consideration and foot traffic to dealers among prospective car buyers given that:

- Six out of 10 car buyers enter shopping experience unsure of which brand to purchase [Automotive Shopper Path to Purchase, Millward Brown Digital and Polk, September 2015]
- They use multiple sources to help learn about and narrow their choices
 - 83% go online first when researching car purchase
 - 64% use online review websites as part of their research
 - 58% use a mobile device to read reviews and compare cars and prices while they are at a dealership [Datamyx Automotive Guide 2014]
- One in three shoppers have used a mobile device as part of their purchase decision – including using to locate local dealers [Automotive Shopper Path to Purchase, Millward Brown Digital and Polk, September 2015]

Solution

Local PagePop has two proven mobile location advertising services that deliver targeted ads at the very moment consumers' purchase decisions are top of mind. Our location based services outperform non-location based ads in driving click through rates (CTR) and foot traffic.

GeoFencing

Deliver ads to consumers searching for automotive sales using geo-fencing around a specific locations – like your dealerships. You determine how large you want to set the geofence to capture meaningful foot traffic. Only consumers within the defined areas will be served the ads.

GeoRetargeting

Deliver ads to consumers that have frequented specific locations in the past. Real-world retargeting based on actual behavior.

Use our tools to:

- Drive awareness of your brand and dealership location
- Entice on-site visits to learn more about your autos and test drive your cars
- Promote special offers, pricing options
- Generate lead generation for your sales associates

Campaign Thought Starters

There are many ways you can identify consumers who are in the market for a new car or soon will be. Here are just a few campaign thought starters for inspiration – our team is here to help you brainstorm others:

- Target specific buyer types within geo locations to find your desired buyer target
- Retarget potential buyers who have viewed/clicked on your mobile ads and/or visited your dealership
- Use mobile video in 10-, 15- and 30-second spots to drive brand awareness and excitement e.g., a video of a fun test drive embedded with a call to action to alert dealership that they are coming in for a test drive
- Leverage contextual location data such as weather, time of year to showcase car features e.g., car handling in snowy conditions if forecast calls for a winter storm.
- Spotlight star sales associates in ad units so customer has a “personal” connection when they contact your dealership
- Include interactive and location information in ads e.g., include a “Can I afford it” calculator in mobile ad unit with location of dealership

Case Studies

Timing: 3 months

Market Size: Medium – Las Vegas

Background: Centennial Toyota wanted to build awareness of the Red Tag Specials promotion and drive traffic to their website where users could check out specific deals on new and used Toyotas.

Solution: They used a LBA campaign to target a 2 mile radius around their locations and 2 miles around their biggest competitor during summer months. Their creative enticed users to click on the banner in order to view specials.

Impact: 1,010,000 impressions
4,457 clicks
.44% CTR

Timing: Monthly

Market Size: City – Select Cities & Towns in PA

Background: Autohaus was looking to promote monthly deals and specials in their Audi and Volkswagen dealership.

Solution: Autohaus used LBA to target car buyers shopping for similar vehicles at competing dealerships. Retargeting was used to continue to reach these individuals after they left the dealerships.

Impact: 1.5M imps. (late 2014 to end of 2015)
6,806 clicks or 425 averaged per month
.36% CTR

You're on the nice list.
